

ORGANIZATION OVERVIEW

Women in Leadership Vital Voices (WLVV) provides community movers and shakers with an insider's understanding of the political process and encourages strategic involvement in our democracy. We educate powerful women about how to maximize their voices in the political arena through targeted fundraising and open new avenues and options for participation. We amplify members' influence through trusted connections and mutual support and disseminate information about key public policy initiatives and how legislators vote on issues that matter most to us.

Collective Commitment

We raise each other up and have each other's backs. We celebrate each other's successes without negativity or envy. We play fair and never forget who helped us get ahead. We are grateful and gracious for the energy and trust of our sisterhood and the help of our brothers.

MISSION AND VISION

We are a political education and networking organization that seeks to put the levers of power that have long existed in backrooms and boys' clubs into the hands of women with a passion for seeing their causes become realities. We lift each other up as we learn how to, in the words of former President Barack Obama, "lead with our heads and our hearts."
